

PAEDIATRIC FOOTWEAR CATALOGUE

Issue 4

About Smart STEPS

Smart Steps is the paediatric range of footwear manufactured entirely in the UK by Chaneco at our Northampton factory. Chaneco is a close-knit family business which has been making footwear since 1971 and is one of the largest independent suppliers of adult stock, modular and bespoke orthopaedic footwear in the UK.

Smart Steps is a complete range of Paediatric footwear and foot orthotics developed with quality and service in mind at the request of our customers. All of our styles are made of high quality heavy leathers, most with stitchdown construction and a rubber commando sole for durability. The trainer styles are made using the more traditional cemented construction but again with rubber bottoms to increase wearability. We offer all styles in sizes 2 (18) to 9½ (44) in 4 different widths along with Stability, Oversplint and Anti Varus options.

All styles are available as modular - with last additions to improve fit or as fully bespoke footwear. As every pair is made to order it allows us the opportunity to fully customise the footwear to the patient's requirements.

Lead Times

Standard and modular footwear including adaptations will be despatched within 10 working days. Bespoke footwear to a draft, scan or casts will be despatched within 15 working days. If you need footwear urgently, please phone us with your requirements and we will endeavour to meet your timescales.

ORTHOTICS

SMART STEPS

Features & Benefits

All Smart Steps footwear offers the following:

- Available in sizes 2 (18) to 9½ (44) including ½ sizes
- Standard, Anti-Varus or Oversplint Lasts
- Stability option available on all footwear
- Fittings in Extra Slim, Slim, Standard & Wide
- Extra depth to accommodate foot orthotics
- Footwear supplied with a moulded EVA footbed
- Lace, buckle or velcro fastenings available
- Full leather linings & padded collars
- Long, padded medial & lateral stiffeners
- Stitchdown and cemented construction styles
- Rubber commando, lightweight EVA and rubber bottomed trainer sole options
- All modular & sole adaptations available

Regular Last

All styles will be made on our Regular last with standard height long medial and lateral stiffeners unless specified otherwise

Stability Option

The stability option is available on all styles made on our Regular or Anti-Varus lasts and offers a higher and longer stiffener for increased support

Anti-Varus Last

All styles can be made on our Anti-Varus last incorporating 8° forefoot abduction for the treatment of adducted or club feet

Oversplint Last

All styles can be made on our Oversplint last for the accommodation of AFO's providing a straight heel counter, a wider rearfoot and increased instep & ankle circumference

Smart STEPS Inlays

In addition to the standard inlays supplied in the footwear, we are also able to offer a range of alternative inlays manufactured from heat mouldable EVA with a microfibre top cover to fit our footwear perfectly. All inlays are available in all sizes and width fittings with heel cups up to a height of 25mm (please specify when ordering).

Neuro Inlays

- Supports valgus and varus arches
- Neutral heel cup
- Stabilises the metatarsal joints with a moulded metatarsal dome and incorporated dropped hallux
- Wedges, posts and raises can be added for further control

Neutral Inlays

- Supports valgus and varus arches
- Deep neutral heel cup
- Helps to control overpronation by reducing strain and pressure on arches
- Wedges, posts and raises can be added for further control

Anti Pronation Inlays

- Supports valgus and varus arches
- Incorporates a kirby skive and neutral extrinsic post
- Corrects and controls rearfoot
- Wedges, posts and raises can be added for further control

Our standard Arch and Filled Arch Support Inlays both offer extra support to maintain a good biomechanical foot position to help prevent fallen arches, plantar fasciitis and further damage.

Arch Support Inlays

- Available in full and $\frac{3}{4}$ lengths
- Supports valgus and varus arches
- Controls moderate overpronation
- Valgus & varus arches can be made up to a height of 25mm
- Wedges, posts and raises can be added for further control

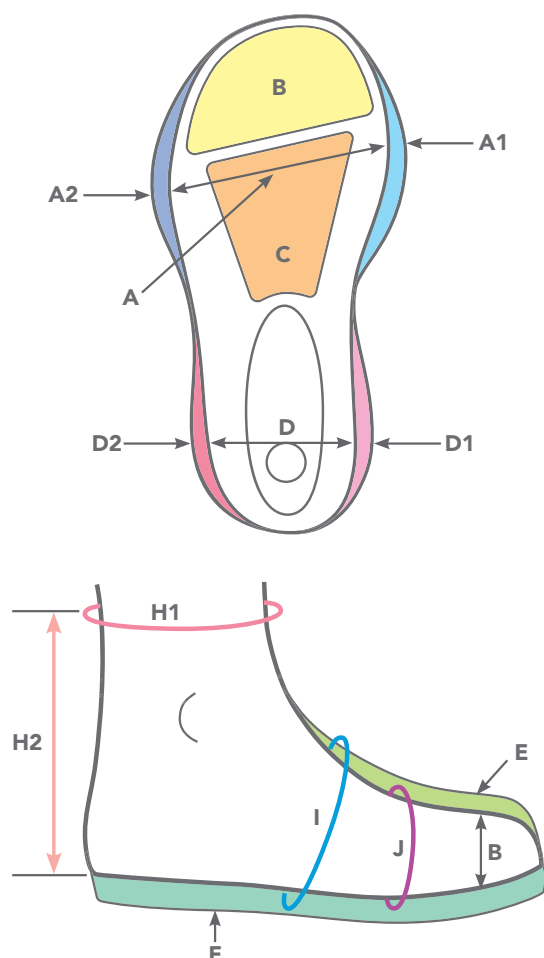

Filled Arch Support Inlays

- Available in full and $\frac{3}{4}$ lengths
- Supports valgus and varus arches
- Controls higher level overpronation with filled arches
- Valgus & varus arches can be made up to a height of 25mm
- Wedges, posts and raises can be added for further control

Smart STEPS Modular

All footwear in this catalogue can be made as modular by building up from our standard lasts. Below are the areas we are able to increase along with the maximum amounts available in each area. Please use the order form on page 23.

	MAXIMUM ADDITIONS (mm)		
	Sizes 2 (18) - 10 (28)	Sizes 10 ½ (29) - 5 (38)	Sizes 5 ½ (39) - 9 ½ (44)
A1 - Medial Joint Width	3	4	5
A2 - Lateral Joint Width	3	4	5
B - Toe Box Depth	6	9	12
C - Throat Depth	6	9	12
D1 - Medial Heel Width	3	4	5
D2 - Lateral Heel Width	3	4	5
E - Forepart Depth	6	9	12
F - Through Depth	6	9	12
I - Instep Circumference	20	25	30
J - Joint Circumference	15	20	25
H1 - Circ. of Leg (Top Line)	30	40	50
H2 - Height at which H1 is required (height of boot)	25	35	45

Bespoke Footwear

If you require measures outside of the modular range, please provide either a draft and measures, casts or scans and use the order form on page 23.

How to measure for Smart STEPS footwear

Using a Non Calibrated Foot Stick

1. Position the foot on the stick non-weight bearing and move the slider up to the longest toe
2. Read the foot length size and add 3 sizes (24mm) to give the shoe size. If measuring weight bearing, add only 2 sizes (16mm) and follow the same process
3. Wrap a tape measure around the widest part of the foot and measure the joint circumference at this point (J)
4. Next reposition the foot sideways and move the slider up to the widest part of the foot and read the joint width measurement in mm from the back of the stick (A)
5. Compare these 3 measures, size first, to the fitting chart opposite and choose the closest shoe width to your measures
6. Wrap a tape measure around the instep of the foot and measure the instep circumference at this point (I)
7. If ordering boots, wrap a tape measure around the leg where you expect the top of the boot to end and measure the leg circumference at this point (H1)
8. Using a small rule measure the depth of the highest toe (B)
9. Position the foot sideways on the foot stick to measure the heel width (D) in mm from the back of the stick
10. Now compare these 4 measures to the fitting chart opposite to ensure the standard measures are suitable for your patient
11. If the measures are not aligned, consider either modular or made to measure footwear as above
NB: Measure over the AFO for Oversplint Last

Smart STEPS Fitting Chart

Regular, Stability, Anti-Varus & Oversplint lasts all have a 3mm Inlay Allowance as standard.

Footwear is supplied with 1 x Leather covered footbed as standard

(Oversplint lasts have 8mm extra width across midfoot & heels & 20mm extra instep circ. to accomodate AFO's)

Rubberised Leather

Black

Scuff-proof rubberised leather

This can be used to add scuff-proof areas such as toe boxes and heel counters and is stitched over the leather during manufacture.

Sole Units

All stitchdown footwear will be supplied with a hard wearing rubber commando sole in either black or caramel. We also offer a lightweight EVA sole should weight of the footwear be paramount above wearability

Rubber Commando Sole

Lightweight EVA Sole

All our trainer styles have a cemented construction with either a Side Stitched sole or Trainer Sole depending on the style in either black or white. Both sole units have a rubber bottom which could be changed to lightweight EVA to reduce weight

Side Stitched Sole

Trainer Sole

Fastenings

All styles are available in lace, Velcro or buckle depending on style. Our standard configuration for each style is shown in this catalogue. Any combination of eyelets, hooks and straps are possible if required - just specify on your order.

All Eyelets (As Storm)

Eyelets with top hook (As Splash)

2 Eyelets otherwise all hooks (As Rocket)

Customisation

All Smart Steps footwear is made to order in Northampton and therefore we have the ability to customise your footwear to grant your patient's wishes.

We have a team of over 50 footwear technicians with a wealth of experience able to meet all your requirements. Our aim is to make our customers smile - so if we can do something to help - please just ask!

Adaptions

Many adaptions can be done either during manufacture or once the footwear is finished using the same materials for the best possible finish. A selection of the most popular are:

- O/S Cork or HDPZ Raise
- Elongated Heels
- Micro Raise
- Heel Wedges
- Raise Heel Raises
- Heel Floats
- Heel Seat or Valgus Wedge in Shoe
- Welt Protectors
- Stirrup Strap
- Toe Bumper
- Lambswool Lining
- Sockets with or without Back Stop
- Rocker Soles
- Toe Raising or Torsion Socket
- Sole Wedges
- T Or Y-Straps
- Sole Floats
- Double Decker 'T' or 'Y' Straps
- Carbon Fibre Sole Plates

Adaption Socket

Micro Raise

Heel Float

Smart STEPS Glitter Options

As all our footwear is made to order, your wish is our command! So why not use our new glitter material to customise your footwear – and get ready to sparkle!

Boot Leg Heights & Circumference Information

These are our standard leg circumference and boot height measurements, according to style and size.

If you require something different to the measures shown, please refer to Page 18 for the maximum alterations available.
If your measurements are above the maximum, we can make your footwear as made to measure.

Looking after Smart **STEPS** footwear

Waxy Leather - Remove any surface dirt using a damp cloth. Then either use shoe polish on a soft cloth and polish to a shine or use colourless leather balm on a soft clean sponge to cover scuffs and restore to a matt finish.

Bulbuck (Suede) - Before wear, spray with suede protector. Remove any surface dirt with the suede brush or nail brush. Use white vinegar on a soft white cloth to rub any stains, allow to dry completely then brush again. Spray with suede protector.

(N.B. When footwear is new, the very strong colours in the Bulbuck (suede) material may leave some colour marking on furniture and other surfaces).

Glitter & Patent Leather - Remove any dirt using a damp cloth & use patent cleaner or petroleum jelly on a soft cloth and polish to a shine.

Useful Information

The below gives some useful information on how we work, is provided solely for information purposes and does not constitute an offer. Any sale will be subject to our terms and conditions in force at such time which can be found on our website www.chaneco.co.uk titled 'General Terms and Conditions'.

Urgent Orders - Please phone us with your requirements if you need footwear urgently and we'll endeavour to meet your timescales.

Trial Fitting Service - We offer a free trial fitting service on modular and made to measure footwear, allowing for small alterations to be made before finishing. Any additional fittings may be chargeable. Footwear will be invoiced if not returned within 90 days.

Despatch - All Smart Steps foot wear, including special orders, will be despatched within 2 weeks (made to measure 3 weeks). UK despatch will be by next working day courier.

Split Size/ Fitting - There is no additional charge for split sizes or fittings on made to order footwear

Returns - Rocket style in black waxy leather, Splash in black waxy leather and Joy in black patent are all fully returnable in either lace or Velcro fastenings when made on the regular last. All other footwear is made to order and is non-returnable including split size/width foot wear.

Important Notice - We do not provide any medical advice or a measuring service and cannot give any medical opinion as to the suitability of any of our products for individual needs. It is the responsibility of the individual to consult a medical or orthopaedic professional before placing an order.

Website - A pdf version of this catalogue and the order form can be downloaded from our website - www.chaneco.co.uk or please scan the QR codes on Page 2 to instantly access our digital version. For additional hard copies, please contact our Customer Services Team on +44 (0)1604 709999.
