### SDO® Original Training Course

Discover how to accurately evaluate and assess clients to recommend SDO® Original and achieve optimal results for individuals with neurological conditions.

This training provides an introduction to The World of SDO® and offers insights into using SDO® in therapy and rehabilitation programs to enhance posture, movement, and functionality. Participants will learn to identify specific client requirements and select the most suitable garment style and reinforcement panels for each individual.

Led by one of our expert clinicians, this intensive one-day course will delve into the practical aspects of SDO® garments, their construction, and various design options. This comprehensive workshop includes clinical theory, prescription techniques, case studies, and training on measuring for SDO® Original.

This course is the second level out of five in the Medigarments SDO® Original training series.

What to do now:

1. Compete and return this form by email to thrive@wellandable.com.au
2. We will register your interest in attending an SDO® Original Training Course and contact you with details of the next available course.
