

Well & Able

Stand up. Strive forward. Thrive on.

Well & Able is dedicated to providing high-quality, wearable postural support solutions that are stylish and improve quality of life. Our extensive range of products for children and adults are all designed to support posture and movement.

- **Orthopaedic footwear**
- **Rear-entry over AFO footwear**
- **Dynamic compression garments**
- **Hensinger Head Supports**
- **Arm and leg gaiters**
- **Hand splints**

The **Aurelka Shoe-Orthosis** is a custom made-to-measure orthosis that combines the function of an AFO with the look and feel of a shoe. The construction is all leather which breathes well in our climate and contours to the foot and ankle joints providing comfort.

Rear-entry over AFO Footwear, with access provided via a rear entry flap, makes it possible for the wearer to insert their foot/AFO easily into the footwear and then fasten using a BOA mechanism.

Please see our website www.wellandable.com.au for more information.
