Special Instruction Guidelines

The intention is to enable a more customised solution for when the needs of the patient cannot be met through the made-to-measure CE marked products.

Please send us the most appropriate standard form complete with measures and any other relevant information within the design choices and modifications. Also provide with this form any additional photographs to support the request.

Your request will then be looked at by our design team who will come back to you with a response and to discuss what we can do to provide a solution.

Designs outside of the standard range offered are subject to a separate quotation and do not fall within the standard price list.
